

**Learning Objectives - Can pandemic lessons help us towards
a Greener General Practice? (GP2GP Series) – 4th March
2021**

- 1. To describe the negative effects of climate change & air pollution on health**
- 2. To recognise how the NHS contributes to the nation's carbon emissions**
- 3. To recommend pragmatic steps general practice can take towards supporting the NHS aim of achieving net zero emissions (NHS Carbon Footprint)**
